# Division

❖ Solve the following division. ❖

⌘ Tips:

- ⌘ Before learning division, learning the multiplication table helps to great extend.
- ⌘ In division, we always start from left unlike other math operation.

Solution:

- ⌘ Step 1: Check the first number if it is in 4s table. 8 is in 4s table. 2 times 4 is 8. Write 2 in Answer area and subtract that number.
- ⌘ Step 2: Move to the next number. If that number is not in 4s table, write 0 in answer area and move to next number. In this case, 2 is not in 4s table so we will move to next number.
- ⌘ Step 3: the next number is 0. Previous number 2 and 0 together makes 20 and 5 times 4 is 20 so we write 5 in answer area and subtract that number from "dividend". Remainder is 0 and hence we complete solving this division.

	H	T	O
	2	0	5
4	8	2	0
	8		
Step 1	0	2	0
	-	2	0
		0	0

Step 2: Arrow from 20 to 20  
Step 3: Arrow from 20 to 00

$$\begin{array}{r} \square \\ 7 \overline{) 287} \\ \hline \end{array}$$

$$\begin{array}{r} \square \\ 3 \overline{) 321} \\ \hline \end{array}$$

$$\begin{array}{r} \square \\ 5 \overline{) 355} \\ \hline \end{array}$$

$$\begin{array}{r} \square \\ 8 \overline{) 816} \\ \hline \end{array}$$

$$\begin{array}{r} \square \\ 6 \overline{) 126} \\ \hline \end{array}$$

$$\begin{array}{r} \square \\ 2 \overline{) 816} \\ \hline \end{array}$$

$$\begin{array}{r} \square \\ 5 \overline{) 105} \\ \hline \end{array}$$

$$\begin{array}{r} \square \\ 3 \overline{) 924} \\ \hline \end{array}$$

$$\begin{array}{r} \square \\ 2 \overline{) 184} \\ \hline \end{array}$$

$$\begin{array}{r} \square \\ 7 \overline{) 350} \\ \hline \end{array}$$

$$\begin{array}{r} \square \\ 8 \overline{) 808} \\ \hline \end{array}$$

$$\begin{array}{r} \square \\ 12 \overline{) 240} \\ \hline \end{array}$$
